CORPORATION  
OF LONDON

### A Message from The Chairman, Edward Wright

In these rather depressing and uncertain days, perhaps more than ever before, the City and people working or living within it, need the cheerfulness of the green open spaces, the plants, trees and flowers which help to make the air more breathable and the sights more pleasing to the eye.

The City Corporation, through its Parks and Gardens department, make a wonderful job of the areas under their control. For the rest however what is quite obviously needed is a really great effort by companies, organisations and individuals to maintain or create window boxes, hanging baskets, gardens of every size and displays of every kind.

So go to it, and be aware that the Summer Campaign has one special and splendid trophy, The James Miller Award, that is exclusively for entirely new displays.

Please try to encourage everyone to take an active part in this campaign.
